

7.1.2 The Institution has facilities for alternate sources of energy and energy conservation measures

1.Solar energy

2. Use of LED bulbs/ power efficient equipment

7.1.2 Types of degradable and non-degradable waste

Solid Waste Management / Proper Drainage System

The college has provided big dust bins to collect solid waste materials across the campus. The wastes from the Dustbins are dumped in pits provided outside premises of various departments and collected waste materials are disposed of through Garbage Collection Vehicles of Garbage Contractor. The Day to Day cleaning of Departmental Buildings and toilet blocks, Administrative buildings internal and general toilet blocks, internal roads, garden cleaning, etc. are being done on a contract basis.

As well as sweepers are also employed on daily wages.

Liquid waste management

For the purpose of General Liquid Waste Management, a proper underground drainage system is developed across the campus.
